GaleMed

GaleVet, a part of GaleMed, is dedicated to providing safe and reliable respiratory and anesthesia products for animal care, while continuously developing solutions to meet the evolving needs of veterinary professionals.

Drawing on GaleMed's extensive experience in human respiratory care and its established medical-device quality standards, GaleVet brings the same commitment to quality, reliability, and product development into veterinary care.

Human-grade quality for animal care—because we care for animals like family.

Your Best Choice for Animal Care

GaleVet / VM-2 Animal Mask

- GaleVet /VM-2 animal mask is designed for small animals for anesthesia, resuscitation, oxygen therapy and aerosol therapy.
- Transparent and high-impact polycarbonate for shell; silicone rubber for cushion and harness.
- Standard 15M or 22F or 22M connection for ventilation equipment.
- GaleVet/VM-2 animal mask set includes mask #0-5, harness, S connectors and transparent case for storage.

Standard connector

Easy connection with compatible devices.

Stainless steel hook

Durable and secure for reliable fixation.

Mask cushion

Provides a soft, comfortable seal for a secure fit.

GaleVet logo marking

Clear marking for easy identification

Anesthesia Circuit

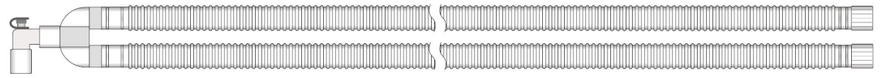

Standard Anesthesia Circuit

- A lighter and more economical option.
- Elbow with built-in 4.3 luer port for gas sampling.
- Single animal use, conform to ISO 10993-1.
- Biocompatible & ISO conformance.

Jackson Rees Anesthesia Circuit

- Tail-end control valve allows the adjustment of pressure levels within the system.
- Enable exhaled air to be collected and directed to a scavenging system.
- Lightweight and disposable.
- Single animal use, conform to ISO 10993-1.
- Biocompatible & ISO conformance.

GaleVet nHME

- Use standard 22/15mm connection.
- Single animal use to minimize the risk of cross-contamination.
- Moisture output: around 31 mg/L H_2O.
- Dead space: 33ml

AH0136 GaleVet nHME, 15F, 15M

Package: 25 pcs/box, 4 boxes/carton

Humi.AIDE™ Paper Type HMEF (pHMEF)

Humi.AIDE™ Paper Type HMEF (pHMEF)

- Paper media: ensure efficient retention of heat and moisture and filtration of bacteria and viruses.
- Uses standard 22/15 mm connections.
- Bacterial / viral filtration: provide up to 99.99% /99.97% of efficiency respectively.
- Optional 4.3F luer port: for pressure monitoring and gas sampling.
- Moisture output: around 31 mg/L H_2O.

AH0025 HMEF, 22F/15M, 22/15 mm

AH0026 HMEF w/Luer, 22F/15M, 22/15 mm

Package: 50 pcs/carton

Viral / Bacterial Filter

- Bacterial / viral filtration: provide up to 99.99% .
- Resistance:
  < 0.87 cmH_2O @ 30LPM
  < 2.52 cmH_2O @ 60LPM

AF0005 Filter, 22F/15M w/Luer

AF0007 Filter, 22F/15M, 22/15mm

Package: 50 pcs/carton

Breathing Bag

Silicone Breathing Bag

- High-performance silicone breathing bag for multiple reprocessing.
- Feature a special cuff design and higher bag compliance.
- Tail-end hook for hanging to air-dry.
- Standard 22F connector.

AB0109	Silicone Breathing Bag 3L
AB0010	Silicone Breathing Bag 2L
AB0108	Silicone Breathing Bag 1L
AB0107	Silicone Breathing Bag 0.5L

Package: 50 pcs/carton

Latex-Free Breathing Bag

- Single animal use breathing bag.
- Latex-free to mitigate the risk of latex allergy.
- Lower resistance and standard 22F connector with more rigid cuff.

AB0122	Latex-Free Breathing Bag 3L
AB0121	Latex-Free Breathing Bag 2L
AB0120	Latex-Free Breathing Bag 1L
AB0119	Latex-Free Breathing Bag 0.5L

Oxygen Therapy & Aerosol Delivery

Animal Oxygen Hood

Inlet port diverter
Redirects oxygen away from the animal.

Tubing port
Keeps tubing neatly positioned.

Weight bar
Helps stabilize the hood during use.

Padded neck opening
Soft fit for different animal sizes.

Oxi.Hood provides a simple and practical solution for veterinary oxygen administration and temperature support. The transparent hood enables clear observation of the animal, while the weight bars and groove design help maintain stable positioning. Available in three sizes to accommodate different animal sizes, each set includes one hood and two weight bars.

Package: 25 pcs/carton

AD0022 RF1 Nebulizer Kit with T Adaptor 22F, 22/15 mm

Package: 25 pcs/carton

Animal MDI Spacer

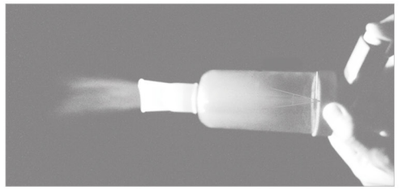

- Enhances drug delivery rate by up to 25%.
- Valved chamber design with one-way valve to direct medicated air flow (AD0111 & AD0112).
- Universal MDI adaptor is compatible with most major brands of Metered Dose Inhaler.
- Can be disassembled and reassembled easily for cleaning.

AD0109 GaleVet Spacer

Package: 48 pkgs/carton

Metered Dose Inhalers (MDIs) are widely used in aerosol therapy for respiratory care. However, effective use requires coordination between inhaler actuation and the animal's inhalation, which can be difficult to achieve. A spacer helps overcome this challenge by allowing animals to breathe at their own pace, improving drug delivery to the lungs while reducing unwanted deposition in the oropharynx and large airways. This can help improve treatment efficiency and therapeutic effectiveness.

(NCKU Experiment Centre)

AD0111 GaleVet MDI Spacer, 22M
AD0112 GaleVet Spacer w/Mask #0

Package: 12 pcs/box, 4 boxes/carton

Animal Silicone Face Mask

- Ergonomic design with soft silicone material provides better mask seal and comfort during resuscitation and anesthesia procedures.
- This Sil.Flex mask has a minimum dead space for better air circulation.
- Bio compatible and latex-free.

AM0182 GaleVet Sil.Flex Mask, #0
AM0183 GaleVet Sil.Flex Mask, #1
AM0184 GaleVet Sil.Flex Mask, #2

GaleMed specializes in the design and manufacture of consumable medical devices in the field of respiratory care. Our products cater to the complete patient journey in respiratory care, including neonatal care, emergency care, anesthesia, critical care, and pulmonary rehabilitation. Backed by a team of clinical professionals, we provide customers with the breadth and depth of product solutions.

GaleMed is headquartered in Taiwan and operates manufacturing facilities in Taiwan and Xiamen. With distinct production lines and dedicated marketing teams in both locations, GaleMed has been committed to customers and market needs globally, spanning Europe, America, Southeast Asia, East Asia, and other parts of the world.

With more than 35 years of OEM and OBM experience, GaleMed provides one-stop services, including **Mold Design, Professional Process, Process Validation & Qualification**, and **Automatic Storage Retrieval System**. GaleMed possesses excellent quality control and global logistics capabilities.

GaleMed has an experienced RQA team and ensures that its employees remain properly certified and continuously trained. We possess medical device market approvals and quality system management certifications from multiple countries to keep pace with evolving medical device regulations, including **TFDA, NMPA, FDA, EU MDR, TW-QMS, ISO 13485, MDSAP, JGMP and others**. Thus, our products and services are in line with the latest international standards, helping maintain our customers in a competitive market.

Established in
1986

Business Types
ODM/ OEM manufacturer,
Contract Manufacturer & Exporter

Main Products
- Respiratory Care
  - Critical Care
  - Anesthesia Care
  - Emergency Care
  - Oxygen Therapy
  - Aerosol Therapy
  - Neonatal Care
  - Lung Training

Quality Management System
- ISO 13485
- ISO 9001
- MDSAP
- JAPAN J-GMP
- TAIWAN QMS

Product Certification
- EU MDR Certificate
- FDA Listing and 510K
- China CFDA Registration
- Taiwan TFDA Registration
